4. Plan of town and village construction
5. General hydroeconomic plan
6. Hydroeconomic bureaus

MINISTRY OF FINANCE

New tasks of the utmost importance to the economy led to the reorganization of the Ministry of Finance. The ministry is now divided into five groups. Minister Jaroslav Kabes remains in charge of the planning group, whereas the other four groups are under the charge of his assistants, as follows: Dr Engr B. Spacil is in charge of the state economy group, Dr O. Fischl is in charge of the enterprise economy group, Dr J. Gregor is in charge of the general and control group, and Representative Josef Horn is in charge of the cadre group.

The monetary reorganization will be culminated by the amalgamation of the Narodni Banka (National Bank), the Zivnostenska Banka (Small Tradesmen's Bank), the Slovak Tatrabanka (Tatra Bank), and the Postovni Sporitelna (Postal Savings Bank), from which, according to a proposal of a prepared bill, a central state bank is to be established. The new supreme banking agency is to conduct, on the basis of the budgets of enterprises, all the technical work connected with the control of the crown. It is also to carry out the credit plan and plan of money circulation.
